AT RISK OF CHEMICAL BURNS? **DIPHOTERINE SOLUTION**

Diphoterine® solution is an emergency rinsing solution for splashes of chemical products. It is intended for first-aid use on the human body. Its rapid use in case of splashing or contact of the skin or eye with a chemical product makes it possible to limit the extent of the burns and lesions caused. Request a full chemical list.

RESPIRATORY

POWERED AIR MADE SIMPLE WITH 3M™

A powered air-purifying respirator (PAPR) is a type of respirator used to safeguard workers against contaminated air. PAPRs consist of a headgear-and-fan assembly that takes ambient air contaminated with one or more type of pollutant or pathogen, actively removes (filters) a sufficient proportion of these hazards, and then delivers the clean air to the user's face or mouth and nose.

CA-ASBKIT

BREATH RESPONSIVE PAPP

Breathe easy with one of the most compact and easy to use Power Air Purifying Respirators (PAPP) on the market. What's unique about the STS Sync01VP3 is that it's breath responsive so the filter and battery only works when you inhale. This means longer battery and filter life. This PAPP system is designed for use with asbestos, silica dust and other fine particulates. Switchless - the system turns on automatically when you start breathing and turns off 5 seconds after doffing. Cordless - no battery connection cables or air hoses to get tangled up in. LED filter replacement indicator - flashes inside mask when it's time to replace the filter.
